

Quarterly Journal of Engineering Geology and Hydrogeology

The journal is abstracted and/or indexed in Current Contents, ASCA, Science Citation Index, Groundwater On-Line, Geological Abstracts, International Civil Engineering Abstracts, Petroleum Abstracts, Geotechnical Abstracts, GeoArchive, GeoRef and Geobase.

CONTENTS – Volume 51, Part 4, November 2018

QJEGH 50th Anniversary Review paper

Five decades of settlement and subsidence

Clive Edmonds

403

Technical note

A modelling study of the variation of thermal conductivity of the English Chalk

Jon Busby

417

Research article

Deep Geothermal Single Well heat production: critical appraisal under UK conditions

Rob Westaway

424

Influence of dry and wet seasons on disintegration characteristics of basalt residual soil from the Leizhou Peninsula, China

X. W. Zhang, L. W. Kong & J. J. Li

450

Proving a landslide: ground behaviour problems at Pissouri, Cyprus

Gareth James Hearn, Hayley Larkin, Kleopas Hadjicharalambous, Artemios Papageorgiou & Georgia Elina Zoi

461

Mechanical properties of expansive clay stabilized with lignosulphonate

Reza Noorzad & Bahram Ta'negonbadi

483

A comparison of small strain stiffness in till as measured by seismic refraction and barometric loading response

R. M. G. Kelly, P. Bergamo, D. A. B. Hughes, S. Donohue, S. L. Barbour & K. Lynch

493

Liberation of selenium from alteration of the Bowland Shale Formation: evidence from the Mam Tor landslide

John Parnell, Liam Bullock, Joseph Armstrong & Magali Perez

503

Quarterly Journal of Engineering Geology and Hydrogeology (ISSN 1470-9236) is published in February, May, August and November by the Geological Society Publishing House for the Geological Society, London. The Geological Society, Burlington House, Piccadilly, London W1V 0JU.

Subscription rates 2018 (volume 51, 4 parts). More information about subscription options can be found at <http://www.geolsoc.org.uk/LyellCollection>. Journal Subscriptions Department, Geological Society Publishing House, Unit 7, Brassmill Enterprise Centre, Brassmill Lane, Bath, UK, BA1 3JN (tel 01225 445046; fax 01225 442836; e-mail: sales@geolsoc.org.uk). The subscription prices for 2018 to institutions and non-Fellows is: UK, £541 + VAT (online only), £676 + VAT (online + print); EU, £605 + VAT (online only), £756 + VAT (online + print); Rest of World, £605 (online only), £756 (online + print). More information about subscription prices can be found at <http://www.geolsoc.org.uk/lcaccess>.

Outside Europe, the Journal is dispatched by various forms of airspeeded delivery. Airfreight and mailing in the USA by agent named Air Business Ltd, c/o Worldnet Shipping Inc., 156–15, 146th Avenue, 2nd Floor, Jamaica, NY 11434, USA. Periodicals postage paid at Jamaica NY 11431. US Postmaster: send address corrections to the Quarterly Journal of Engineering Geology and Hydrogeology, Air Business Ltd, c/o Worldnet Shipping Inc., 156–15, 146th Avenue, 2nd Floor, Jamaica, NY 11434, USA. Back numbers are normally dispatched by surface mail.

Cover Photograph. Salinity testing of a groundwater fed watering hole in Lewa Wildlife Conservancy, Isiolo District, Laikipia County, north-central Kenya. Maasai counterparts are investigating water chemistry to determine the hydro-chemical signature, origin, recharge processes and travel times of a groundwater fed perennial watering hole, as part of a conservancy-wide water scarcity assessment and resilience planning initiative in the northern foothills of Mount Kenya, following severe droughts in the region. Springs discharging from Pleistocene basalts on the northern flank of Mount Kenya support year round stream flows and wetland ecosystems, which sustain one of the largest black and white rhino populations in East Africa, in addition to more than 300 zebra, 500 elephants, innumerable wildebeest and gazelle, as well as more than 40 wild cats including lions, cheetahs and leopards. The springs and local boreholes also provide drinking water supplies to more than 6000 people living within and around the conservancy.
