Photographic feature: North Point Concourse excavation, Hong Kong ii

G. I. COTTIS: Preliminary observations on the design and construction of a four-lane highway through expansive clay in Cyprus 179

The Engineering Geology of Tidal Rivers
(Regional Meeting of the Engineering Group, Hull, 12–16 September 1983. Further papers from this meeting will be published in Vol. 17, No. 4.)

J. R. COFFEY: Construction in tidal rivers: an overview 193

R. W. HORNER: The Thames tidal flood risk—the need for the barrier: a review of its design and construction 199

MARY P. KENDRICK: Impact of engineering structures on tidal flow and sediment distribution in the Thames 207

A. B. HAWKINS: Depositional characteristics of estuarine alluvium: some engineering implications 219

D. A. COOK & M. R. ROY: A review of the geotechnical properties of Somerset alluvium using data from the M5 motorway and other sources 235

A. MCGOWN & D. MILLER: Stratigraphy and properties of the Clyde alluvium 243

I. M. KIRKPATRICK & D. M. MCCANN: Engineering geological and geophysical investigation of the Barking Creek tidal barrier site 259

M. S. FLETCHER & R. A. NICHOLLS: A buried valley in the Orwell estuary 283

Proceedings: Groundwater Development in Third World countries 289
