

THE
QUARTERLY JOURNAL
OF
ENGINEERING
GEOLOGY

Vol. 2, no. 2 15 December 1969 Price 30 shillings
Published by The Geological Society of London

GEOLOGICAL SOCIETY OF LONDON

<i>President</i>	Professor T. N. George, D.SC. PH.D. D- ts -SC. F.R.S. F.R.S.E.
<i>Secretaries</i>	Mr W. B. Harland, M.A. F.R.A.S. Dr H. W. Ball
<i>Foreign Secretary</i>	Mr N. L. Falcon, M.A. F.R.S. F.INST.PET.
<i>Treasurer</i>	Dr W. Bullerwell, F.INST.P. F.R.A.S.

ENGINEERING GROUP EDITORIAL SUB-COMMITTEE

<i>Chairman</i>	Dr W. R. Dearman, A.R.C.S. F.G.S.
<i>Secretary</i>	Mr J. E. Farnaby, M.SC. D.I.C. A.M.I.C.E. A.M.I.STRUCT.E. Dr J. L. Knill, D.I.C. A.R.C.S. Dr G. Lees, B.SC. A.INST.H.E. Mr G. E. Satterthwaite, F.R.A.S.

THE QUARTERLY JOURNAL OF ENGINEERING GEOLOGY

The scope of the journal, within the field of engineering geology, will be widely drawn. The journal is open to contributions from Fellows and non-Fellows of the Society, in this country and overseas. Papers will be considered which deal with any of the subjects within the field of geology as applied to civil engineering and mining practice, including rock mechanics, soil mechanics and geotechnics; applied sedimentology, pedology, mineralogy and petrology; geohydrology and hydrogeology; and engineering application of geophysics.

Case histories and review articles of a more general character will also be considered, particularly if these are of a timely nature. It will be editorial policy occasionally to group several related papers together in the same issue.

Editors:

Dr G. Lees, B.SC. A.INST.H.E.
Department of Transportation &
Environmental Planning,
P.O. Box 363, The University,
Birmingham 15.
Telephone Selly Oak (021-381) 1301, ext. 589

Mr G. E. Satterthwaite, F.R.A.S.
Geological Society of London,
Burlington House,
Piccadilly,

THE QUARTERLY JOURNAL OF ENGINEERING GEOLOGY

Vol. 2, no. 2

15 December 1969

Contents

R. L. ARSCOTT & P. HACKETT: The effect of geological features on the occurrence of gas outburst fractures in the East Midland Coalfield	89
P. G. FOOKES & R. BEST: Consolidation characteristics of some late Pleistocene periglacial metastable soils of east Kent	103
G. LEES: Influence of boundary effects on the packing and porosity of granular materials .	129
J. W. NORMAN: Photo-interpretation of boulder clay areas as an aid to engineering geological studies	149
Some papers accepted for publication in forthcoming issues	159
