The Second Glossop Lecture, 16 November 1998

E. Hoek: Putting numbers to geology—an engineer’s viewpoint ........................................ 1

N. P. Richards & M. E. Barton: The Folkestone Bed Sands: microfabric and strength ........ 21

M. A. Al-Shamrani & A. I. Al-Mhaidib: Prediction of potential vertical swell of expansive soils using a triaxial stress path cell .................................................. 45

S. Barnes: Karstic groundwater flow characteristics in the Cretaceous Chalk aquifer, Northern Ireland .................................................... 55

S. C. Wood, P. L. Youtzcer & N. S. Robins: Long-term changes in the quality of polluted minewater discharges from abandoned underground coal workings in Scotland 69

D. R. Wardrop: A study on the accuracy of sand and gravel reserve estimates ............... 81

S. S. Razouki & O. A. El-Janabi: Technical Note: Decrease in the CBR of gypsiferous soil due to long-term soaking .................................................. 87

Book Reviews ........................................................................................................ 93

Abstracted and/or indexed in Current Contents, ASCA, Science Citation Index, Groundwater On-Line Geological Abstracts, International Civil Engineering Abstracts, Petroleum Abstracts, Geotechnical Abstracts, Geoarchive, GeoRef and GEOBASE
