The Quarterly Journal of Engineering Geology and Hydrogeology is published by the Geological Society and is an established peer reviewed journal with subscriber numbers of over 4000 worldwide. Papers are invited from, and about, all areas of the world on engineering geology and hydrogeology topics including all relevant aspects of the approach of geology to civil engineering, mining practice and geological hazards. The journal includes planning, geotechnics, rock mechanics, soil mechanics, geophysics, engineering geomorphology, environmental geology, hydrogeology, groundwater quality, ground source geothermal topics, geomaterials and geological hazards. The journal includes papers, case histories, review articles, technical notes, photographic features, discussions, book reviews and periodic reports.

The Geological Society of London was founded in 1807, and is the oldest geological society in the world. It received its Royal Charter in 1825 and is now Britain’s national society for geology. Both a learned society and a professional body, the Geological Society is the chartering authority able to award Chartered Geologist (CGeol) status to appropriately qualified Fellows with six years relevant postgraduate experience in the practice of geology. The Society also awards the title of Chartered Scientist (CSi). Candidate Fellowship is available to those not yet qualifying for Fellowship (students). Fellows of the Geological Society can choose a subscription to the Quarterly Journal of Engineering Geology and Hydrogeology as a benefit of membership. Further information: email: membership@geolsoc.org.uk; http://www.geolsoc.org.uk; tel: +44 (0) 207 434 9944. The Society is a Registered Charity, no. 210161.
