*Chairman & Scientific Editor* Professor W. R. Dearman, PH.D., A.R.C.S., F.G.S.  
Dr W. W. Bishop, Dr S. H. U. Bowie, Dr P. McL. D. Duff,  
Dr P. G. Fookes, Mr D. Grant (representing Scottish  
Academic Press), Mr I. A. Higginbottom, Professor E. Hoek,  
Dr G. P. Jones, Mr G. Walton, Mr P. F. F. Lancaster-Jones

## THE QUARTERLY JOURNAL OF ENGINEERING GEOLOGY

The scope of the journal, within the field of engineering geology, is widely drawn. The journal is open to contributions from Fellows and non-Fellows of the Society, in this country and overseas. Papers will be considered which deal with any of the subjects within the field of geology as applied to civil engineering and mining practice, including rock mechanics, soil mechanics and geotechnics; applied sedimentology, pedology, mineralogy and petrology; geohydrology and hydrogeology; and engineering application of geophysics.

Case histories and review articles of a more general character will also be considered, particularly if these are of a timely nature. It will be editorial policy occasionally to group several related papers together in the same issue.
